(806) 223-5810

I have spent the last 18 years working for Panhandle Community Services, in various positions and now as Director of Transportation. PCS has been a member of Texas Transit Association for over 20 years.

A lot has changed in 18 years but what hasn't changed is the vast area my team covers. Panhandle Transit takes care of the top 26 counties of Texas which covers 26,000 square miles. During the time I have been with PCS our fleet has doubled and the dream of building a maintenance facility is finally coming into fruition.

Being a member of the Texas Transit Association and serving on the board is important to me as it gives a voice to our rural districts.
