

ADDENDUM 1

DATE: 10/2/2023
SOLICITATION TITLE: IP CLOUD BASED CAMERA SYSTEMS
SOLICITATION NO.: WTO-0923
PROPOSAL DUE DATE: 10/19/2023

This Addendum is a formal addition to West Texas Opportunities, Inc. (WTO) Request for Proposals (RFP) WTO-0923, issue date: September 18, 2023.

Questions Posed and WTO Clarifications

The following is clarification to questions sent in writing to West Texas Opportunities, Inc. by the deadline for questions (9/29/23).

Question 1:

Does the pan, tilt, zoom requirement refer to cameras magnification technology ability to digitally enlarge an area of a post recorded image or are you asking that (all) cameras have the physical and mechanical ability zoom, tilt and rotate in a 270/360-degree fashion. If true PTZ cameras are required, please indicated how many are needed per location.

Answer 1:

WTO is requesting true PTZ capability for cameras located outdoors. Interior cameras are not required to have the mechanical ability to zoom, tilt and rotate.

See Section 1.A. of the RFP for list of numbers and locations (i.e., indoor or outdoor) of cameras.

Question 2:

Are all cameras to have audio capabilities or only indoor or selective cameras?

Answer 2:

WTO is amending this requirement listed under Technical Specifications. No cameras will be required to have audio capabilities.

Question 3:

Please confirm that WTO is requesting off-site Cloud storage of video to be archived for a period of 180-days for all cameras

Answer 3:

Yes, WTO is requesting off-site cloud storage of video. However, WTO is amending the request for the storage period. Storage period will need to be 30 days, rather than 180 days.

Question 4:

Please clarify if there is a storage requirement of 1MP, 2MP, 3MP or native resolution 4MP for cloud storage.

Answer 4:

WTO is requesting 4MP for cloud storage.

Question 5:

Where should we include the cost of the 3-year support agreement requested on top of page 7?

Answer 5:

Responders should include the cost of the 3-year support agreement within the total cost, and itemized within the row on page 24 named *Describe Camera System Details*. It is acceptable for responders to attach an additional page, or pages, in order to itemize camera system details as desired.
