SPCAA shall conduct procurements in a manner that does not give in-State or local geographical preferences in the evaluation of bids or proposals, except in those cases where applicable Federal statutes expressly mandate or encourage geographic preference. This does not preempt State licensing laws. Geographic location may be a selection criterion in procurements for architectural and engineering (A&E) services if an appropriate number of qualified firms, given the nature and size of the project, are able to compete for the contract.

### **D. Deadline for Submission**

The deadline for submission of proposals is 4:00 p.m. (CST) Friday December 1, 2023.

### **E. Submission Requirements**

SPCAA specifically reserves the right to vary the provisions set forth herein anytime prior to the execution of a contract where such variance is deemed to be in the best interest of the needs of SPCAA. While every effort has been made to ensure the accuracy and completeness of the information in this RFP, SPCAA recognizes that the information is not exhaustive in every detail and that all work and materials may not be expressly mentioned in the requirements of the RFP. Therefore, it is the responsibility of the Contractor to include in their proposal all software and hardware requirements which are necessary for the full performance of the system.

Proposals not meeting the submission requirements listed below will be considered ineligible.

**J. Modification and Renewals**

SPCAA reserves the right to negotiate a modification or renewal for ITS and Services in connection with any executed agreement/contract funded through this RFP without repeating the RFP process for a period of up to five (5) years from the original proposal initiation. **L. Evaluation Criteria**

The selection of a proposal is to be made after a careful evaluation of the proposals received. Each proposal will be evaluated for acceptability with emphasis on the various factors enumerated in the EVALUATION TABLE. Each factor is assigned a numerical score. The scores will be used to determine vendor(s) with whom negotiations may be conducted. Evaluations will be based upon the following criteria table for which up to 100 points may be awarded. Total evaluation values of less than 70 points will invalidate a proposal.

**M. Protest Rights**

Any bidder may file a grievance with SPCAA following a competitive bidding process. Once a selection is made, bidders must be notified in writing of the results. ## BUSINESS CONDUCT

---

### **Practice of Ethical Behavior**

SPCAA requires board members, committee members, and employees to observe high standards of business and personal ethics in the conduct of their duties and responsibilities, and all directors, committee members, and employees to comply with all applicable laws and regulatory requirements. Unethical actions, or the appearance of unethical actions, are unacceptable under any conditions. The policies and reputation of SPCAA depend to a very large extent on the following considerations.

Each employee must apply her or his own sense of personal ethics, which should extend beyond compliance with applicable laws and regulations in business situations, to govern behavior where no existing regulation provides a guideline. Each employee is responsible for applying common sense in business decisions where specific rules do not provide all the answers.

In determining compliance with this standard in specific situations, employees should ask themselves the following questions:

1. Is my action legal?
2. Is my action ethical?
3. Does my action comply with SPCAA policy?
4. Am I sure my action does not appear inappropriate?
5. Am I sure that I would not be embarrassed or compromised if my action became known within the Organization or publicly?
6. Am I sure that my actions meet my personal code of ethics and behavior?
7. Would I feel comfortable defending my actions on the 6 o'clock news?

Each employee should be able to answer "yes" to all of these questions before taking action.

Each director, manager, and supervisor are responsible for the ethical business behavior of her or his subordinates. Directors, managers, and supervisors must carefully weigh all courses of action suggested in ethical, as well as economic, terms and base their final decisions on the guidelines provided by this policy, as well as their personal sense of right and wrong.

If a current or prospective legal matter that may affect the Federal Government emerges, the Recipient must promptly notify the FTA Chief Counsel and FTA Regional Counsel for the Region in which the Recipient is located. The Recipient must include a similar notification requirement in its Third-Party Agreements and must require each Third-Party Participant to include an equivalent provision in its sub-agreements at every tier, for any agreement that is a “covered transaction” according to 2 C.F.R. §§ 180.220 and 1200.220.

- I. The types of legal matters that require notification include, but are not limited to, a major dispute, breach, default, litigation, or naming the Federal Government as a party to litigation or a legal disagreement in any forum for any reason.
- II. Matters that may affect the Federal Government include, but are not limited to, the Federal Government's interests in the Award, the accompanying Underlying Agreement, and any Amendments thereto, or the Federal Government's administration or enforcement of federal laws, regulations, and requirements.
- III. Additional Notice to U.S. DOT Inspector General. The Recipient must promptly notify the U.S. DOT Inspector General in

addition to the FTA Chief Counsel or Regional Counsel for the Region in which the Recipient is located, if the Recipient has knowledge of potential fraud, waste, or abuse occurring on a Project receiving assistance from FTA. This responsibility occurs whether the Project is subject to this Agreement or another agreement between the Recipient and FTA, or an agreement involving a principal, officer, employee, agent, or Third-Party Participant of the Recipient. It also applies to subcontractors at any tier. Knowledge, as used in this paragraph, includes, but is not limited to, knowledge of a criminal or civil investigation by a Federal, state, or local law enforcement or other investigative agency, a criminal indictment or civil complaint, or probable cause that could support a criminal indictment, or any other credible information in the possession of the Recipient. In this paragraph, “promptly” means to refer information without delay and without change. This notification provision applies to all divisions of the Recipient, including divisions tasked with law enforcement or investigatory functions.

The Federal Government retains the right to a proportionate share of any proceeds recovered from any third party, based on the percentage of the federal share for the Underlying Agreement. #### A. Rights in Data and Copyrights

- I. Definition of "Subject Data." As used in this section, "subject data" means recorded information, whether or not copyrighted, that is delivered or specified to be delivered as required by the Underlying Agreement. Examples of subject data include, but are not limited to computer software, standards, specifications, engineering drawings and associated lists, process sheets, manuals, technical reports, catalog item identifications, and related information, but do not include financial reports, cost analyses, or other similar information used for performance or administration of the Underlying Agreement.
- II. General Federal Restrictions. The following restrictions apply to all subject data first produced in the performance of the Underlying Agreement:
  - a. Prohibitions. The Recipient may not publish or reproduce any subject data, in whole, in part, or in any manner or form, or permit others to do so.
  - b. Exceptions. The prohibitions do not apply to publications or reproductions for the Recipient's own internal use, an institution of higher learning, the portion of subject data that the Federal Government has previously released or approved for release to the public, or the portion of data that has the Federal Government's prior written consent for release.
- III. Federal Rights in Data and Copyrights. The Recipient agrees that:
  - a. General. It must provide a license to its subject data to the Federal Government that is royalty-free, non-exclusive, and irrevocable. The Federal Government's license must permit the Federal Government to reproduce, publish, or otherwise use the subject data or permit other entities or individuals to use the subject data provided those actions are taken for Federal Government purposes; and
  - b. U.S. DOT Public Access Plan – Copyright License. The Recipient grants to U.S. DOT a worldwide, non-exclusive, non-transferable, paid-up, royalty free copyright license, including all rights under copyright, to any and all Publications and Digital Data Sets as such terms are defined in the U.S. DOT Public Access plan, resulting from scientific research funded either fully or partially by this funding agreement. The Recipient herein acknowledges that the above copyright license grant is first in time to any and all other grants of a copyright license to such Publications and/or Digital Data Sets, and that U.S. DOT shall have priority over any other claim of exclusive copyright to the same.
- IV. Special Federal Rights in Data for Research, Development, Demonstration, Deployment, Technical Assistance, and Special Studies Programs. In general, FTA's purpose in providing federal assistance for a research, development, demonstration, deployment, technical assistance, or special studies program is to increase transportation knowledge, rather than limit the benefits of the Award to the Recipient and its Third-Party Participants. Therefore, the Recipient agrees that:
  - a. Publicly Available Report. When an Award providing federal assistance for any of the programs described above is completed, it must provide a report of the Underlying Agreement that FTA may publish or make available for publication on the Internet.
  - b. Other Reports. It must provide other reports related to the Award that FTA may request.
  - c. Availability of Subject Data. FTA may make available its copyright license to the subject data, and a copy of the subject data

to any FTA Recipient or any Third-Party Participant at any tier, except as the Federal Government determines otherwise in writing.

- d. Identification of Information. It must identify clearly any specific confidential, privileged, or proprietary information submitted to FTA
  - e. Incomplete. If the Award is not completed for any reason whatsoever, all data developed with federal assistance for the Award becomes subject data and must be delivered as the Federal Government may direct.
  - f. Exception. This section does not apply to an adaptation of any automatic data processing equipment or program that is both for the Recipient's use and acquired with FTA capital program assistance.
- V. License Fees and Royalties. Consistent with the applicable U.S. DOT Common Rules, the Recipient agrees that license fees and royalties for patents, patent applications, and inventions produced with federal assistance provided through the Underlying Agreement are program income and must be used in compliance with federal applicable requirements.
- VI. Hold Harmless. Upon request by the Federal Government, the Recipient agrees that if it intentionally violates any proprietary rights, copyrights, or right of privacy, and if its violation under the preceding section occurs from any of the publication, translation, reproduction, delivery, use or disposition of subject data, then it will indemnify, save, and hold harmless the Federal Government against any liability, including costs and expenses of the Federal Government's officers, employees, and agents acting within the scope of their official duties. The Recipient will not be required to indemnify the Federal Government for any liability described in the preceding sentence, if the violation is caused by the wrongful acts of federal officers, employees or agents, or if indemnification is prohibited or limited by applicable state law.
- VII. Restrictions on Access to Patent Rights. Nothing in this section of this Master Agreement pertaining to rights in data either implies a license to the Federal Government under any patent or may be construed to affect the scope of any license or other right otherwise granted to the Federal Government under any patent.
- VIII. Data Developed Without Federal Assistance or Support. The Recipient agrees that in certain circumstances it may need to provide to FTA data developed without any federal assistance or support. Nevertheless, this section generally does not apply to data developed without federal assistance, even though that data may have been used in connection with the Award. The Recipient agrees that the Federal Government will not be able to protect data developed without federal assistance from unauthorized disclosure unless that data is clearly marked "Proprietary," or "Confidential."
- IX. Requirements to Release Data. The Recipient understands and agrees that the Federal Government may be required to release data and information that the Recipient submits to the Federal Government as required under:
- a. The Freedom of Information Act (FOIA), 5 U.S.C. § 552;
  - b. The U.S. DOT Common Rules;
  - c. The U.S. DOT Public Access Plan, which provides that the Recipient agrees to satisfy the reporting and compliance requirements as set forth in the U.S. DOT Public Access plan, including, but not limited to, the submission and approval of a Data Management Plan, the use of Open Researcher and Contributor ID (ORCID) numbers, the creation and maintenance of a Research Project record in the Transportation Research Board's (TRB) Research in Progress (RiP) database, and the timely and complete submission of all required publications and associated digital data sets as such terms are defined in the DOT Public Access plan. Additional information about how to comply with the requirements can be found at <http://ntl.bts.gov/publicaccess/howtocomply.html>; or
  - d. Other federal laws, regulations, requirements, and guidance concerning access to records pertaining to the Award, the accompanying Underlying Agreement, and any Amendments thereto.

Examples of "subject data" include, but are not limited to computer software, standards, specifications, engineering drawings and associated lists, process sheets, manuals, technical reports, catalog item identifications, and related information, but do not include financial reports, cost analyses, or other similar information used for performance or administration of the Contract.

  - a. Any subject data developed under the Contract, whether or not a copyright has been obtained; and
  - b. Any rights of copyright purchased by the Contractor using Federal assistance in whole or in part by the FTA.
2. Unless FTA determines otherwise, the Contractor performing experimental, developmental, or research work required as part of this Contract agrees to permit FTA to make available to the public, either FTA's license in the copyright to any subject data developed in the course of the Contract, or a copy of the subject data first produced under the Contract for which a copyright has not been obtained. If the experimental, developmental, or research work, which is the subject of this Contract, is not completed for any reason whatsoever, all data developed under the Contract shall become subject data as defined herein and shall be delivered as the Federal Government may direct.
3. Unless prohibited by state law, upon request by the Federal Government, the Contractor agrees to indemnify, save, and hold harmless the Federal Government, its officers, agents, and employees acting within the scope of their official duties against any liability, including costs and expenses, resulting from any willful or intentional violation by the Contractor of proprietary rights, copyrights, or right of privacy, arising out of the publication, translation, reproduction, delivery, use, or disposition of any data furnished under that contract. The Contractor shall not be required to indemnify the Federal Government for any such liability arising out of the wrongful act of any employee, official, or agents of the Federal Government.
4. Nothing contained in this clause on rights in data shall imply a license to the Federal Government under any patent or be construed as affecting the scope of any license or other right otherwise granted to the Federal Government under any patent.

Data developed by the Contractor and financed entirely without using Federal assistance provided by the Federal Government that has been incorporated into work required by the underlying Contract is exempt from the requirements herein, provided that the Contractor identifies those data in writing at the time of delivery of the Contract work.

**F. §2254.004 Gov't Code Dispute Resolution Contract for Professional Services of Architect, Engineer, or Surveyor**

The Recipient will comply with Texas Government Code, Section 2260.002, the dispute resolution process provided for in Chapter 2260 of the Texas Government Code and set forth below in subsections (a)-(d) shall be used by the parties to attempt to resolve all disputes arising under the agreement. In accordance with the Texas Civil Practice and Remedies Code, Section 114.005, the parties agree claims encompassed by Texas Government Code, Section 2260.002(3) and Texas Civil Practice and Remedies Code Section 114.002 shall be governed by the dispute resolution process set forth below in subsections (a)-(d).

- I. Notwithstanding Texas Government Code Chapter 2260.002 (3) and Chapter 114.12 and any other statute or applicable law, if the Sub-recipient's claim for breach of contract cannot be resolved by the parties in the ordinary course of business, Sub-

recipient may make a claim against Agency for breach of contract and the Agency may assert a counterclaim against Sub-recipient as is contemplated by Texas Government Code Chapter 2260, Subchapter B. In such event, Sub-recipient must provide written notice to Agency of a claim for breach of the agreement not later than the 180th day after the date of the event giving rise to the claim. The notice must state with particularity:

- a. the nature of the alleged breach;
  - b. the amount the Sub-recipient seeks as damages; and
  - c. the legal theory of recovery.
- II. The chief administrative officer, or if designated in the Agreement another officer of TxDOT, shall examine the claim and any counterclaim and negotiate with Sub-recipient in an effort to resolve them. The negotiation must begin no later than the 120th day after the date the claim is received, as is contemplated by Texas Government Code, Chapter 2260, Section 2260.052.
  - III. If the negotiation under paragraph. Above results in the resolution of some disputed issues by agreement or in a settlement, the parties shall reduce the agreement or settlement to writing and each party shall sign the agreement or settlement. A partial settlement or resolution of a claim does not waive a party's rights under this Agreement as to the parts of the claim that are not resolved.
  - IV. If a claim is not entirely resolved under paragraph (b) above, on or before the 270th day after the date the claim is filed with TxDOT, unless the parties agree in writing to an extension of time, the parties may agree to mediate a claim made under this dispute resolution procedure. This dispute resolution procedure is Sub-provider's sole and exclusive process for seeking a remedy or an alleged breach of contract by TxDOT if the parties are unable to resolve their dispute as described in this section.
  - V. Nothing in this Agreement shall be construed as a waiver of the state's or TxDOT's sovereign immunity. This Agreement shall not constitute or be construed as a waiver of any of the privileges, rights, defenses, remedies, or immunities available to the State of Texas. The failure to enforce, or any delay in the enforcement, of any privileges, rights, defenses, remedies, or immunities available to the State of Texas under this Agreement or under applicable law shall not constitute a waiver of such privileges, rights, defenses, remedies, or immunities, or be considered as a basis for estoppel. TxDOT does not waive any privileges, rights, defenses, or immunities available to TxDOT by entering into this Agreement or by its conduct or by the conduct of any representatives of TxDOT, prior to or subsequent to entering into this Agreement.
  - VI. Compliance with the dispute resolution process provided for in Texas Government Code, Chapter 2260, subchapter B and incorporated by reference in subsection (a)-(d) above is a condition precedent to the Sub-recipient:
    - a. filing suit pursuant to Chapter 114 of the Civil Practice and Remedies Code; or
    - b. initiating a contested case hearing pursuant to subchapter C of Chapter 2260 of the Texas Government Code.
